Rocks and Ropes is a 14,000 square foot indoor climbing gym with 35 foot high walls. We specialize in teaching new climbers and making the climbing experience safe and enjoyable for everyone.

Summer Camps

Since 1992 , Rocks and Ropes has hosted summer climbing camps. Children of all ages and climbing abilities have found out that our camp is the most fun, unique and safe way to make your summer exciting and educational.

Is it safe? Climbing is inherently dangerous. The instructors are experienced climbers with expertise in safety and climbing technique. To compliment the technical knowledge, the entire staff is great with kids. They love to teach and look forward to a rewarding summer. All lead counselors are First Aid/CPR certified. We also have a number of AMGA "Single-Pitch Instructors."

Whether a climber is new or experienced, special attention is paid to every child. Our ratio provides a supervised environment that enhances the climbing experience, making it safe, educational and fun.

Never Climbed or Been to Climbing Camp before?

Either way, no problem. Climbing is a sport that allows beginning and experienced climbers to climb together and still be able to learn. For beginners, no climbing experience is necessary. If a child has been to our camp before, he or she will continue to have fun and improve as a climber. Climbing is always challenging, interesting and enjoyable. We offer 4 camps:

waiver forms: In order to facilitate the first day of camp, it is helpful for parents go to our website and print out the waiver form. Bring this completed form in at check in.

rocksandropes.com

Rock 1: ages 6-8 by 8/1/11

This small class size ensures that we go at a rate that's perfect for this young age. Under close supervision we teach these little ones the basics of knot-tying, rope-technique, cooperation and responsibility. We set the ground-work for our future members and the safety of our sport. Students should bring a snack each day.

Rock 2: ages 9-11 by 8/1/11

Instructors start at the very beginning for new climbers, teaching all the basics in safe climbing. Those with previous experience get a chance to hone their skills and progress. Special attention is then paid to each child to ensure, regardless of ability, that he or she is able to develop and improve as a climber while having a great time. Climbers will also prepare for one day of outdoor climbing.

Rock 3: ages 12+ by 8/1/11

Once the climbing fundamentals are taught, the climbers learn advanced techniques and skills to prepare for 2 days of outdoor climbing. All climbing equipment is provided at the gym; just wear some comfortable clothes.

Rock 4: ages 12+ by 8/1/11 (at the discretion of the guide).

This camp is designed for kids who have done camps before or those looking to experience more outdoor climbing. We will be outdoors on Mt.Lemmon for 4 of the 5 days during each session. Climbing proficiency at a 5.7 level and ability to hike up to 2 miles is required to participate in this camp. Join us for a Rocks and Ropes experience like no other.
